

Manor Hotel — sample document

Test file for the photo-document linking feature

This is a placeholder PDF, not a real historical record. It exists to test that a document dropped into Google Drive links up correctly to a photo on the Memories of Thurmaston site.

To test it: upload this file to Google Drive as **Manor Hotel.pdf** , in the same folder as the existing "Manor Hotel" photo (Streets & Buildings). Within the hour, the Manor Hotel photo on the site should show a small document badge, and opening it should show a "View document" button linking to this file.

Once you've confirmed it works, replace this file with a real document about the Manor Hotel — same filename, same folder — and it'll take over the link automatically.
